

Specialty Prescription Drug List

Specialty medications are generally prescribed for people with complex or ongoing medical conditions and are typically high cost. Below is a listing of most specialty medications. Some members take additional medications with Specialty medications, like methotrexate, that are not included in this list. Please use your Archimedes Specialty Drug ID card with your specialty pharmacy. Some specialty medications are limited distribution and are only available via select pharmacies. For more information please call the number on the back of your Archimedes Specialty ID card.
